

Public Examination Results

This year, exam boards made it clear that grading standards need to return to pre-pandemic levels. Therefore, results for 2023 are expected to be comparable with those of 2019 with some minor adjustments made to protect pupils from the disruption they have experienced.

The pupils whose results are reported here had their learning interrupted by COVID-19 and it is hard to believe that this will not have impacted some pupils' ability to access their learning.
